

Activity report of Special lecture on Value Education

A Special lecture on Value Education was organized by Internal Quality Assurance Cell on 02.08.2023. Pravrajika Atandraprana, Assistant Secretary of Sarada Math delivered her lecture on the said topic to teachers and students of Gokhale Memorial Girls' College. The lecture on value education comes at a very crucial juncture in the new journey about to begin for our new entrants. In this age of disillusion and incertitude, there is an imperative need to look into that aspect of educational practice which entails values and norms which may be moral, ethical political and also dispositions and skills embedded in those values that are to be developed among students. It would be unfair to say that values do not exist in the modern society and they need to be imbibed externally and consciously. Values are inbuilt assets. A child understands and connects with the "good and the noble" through the family. The student learns values right from the first day of school through group interaction, discipline and willingness to excel.

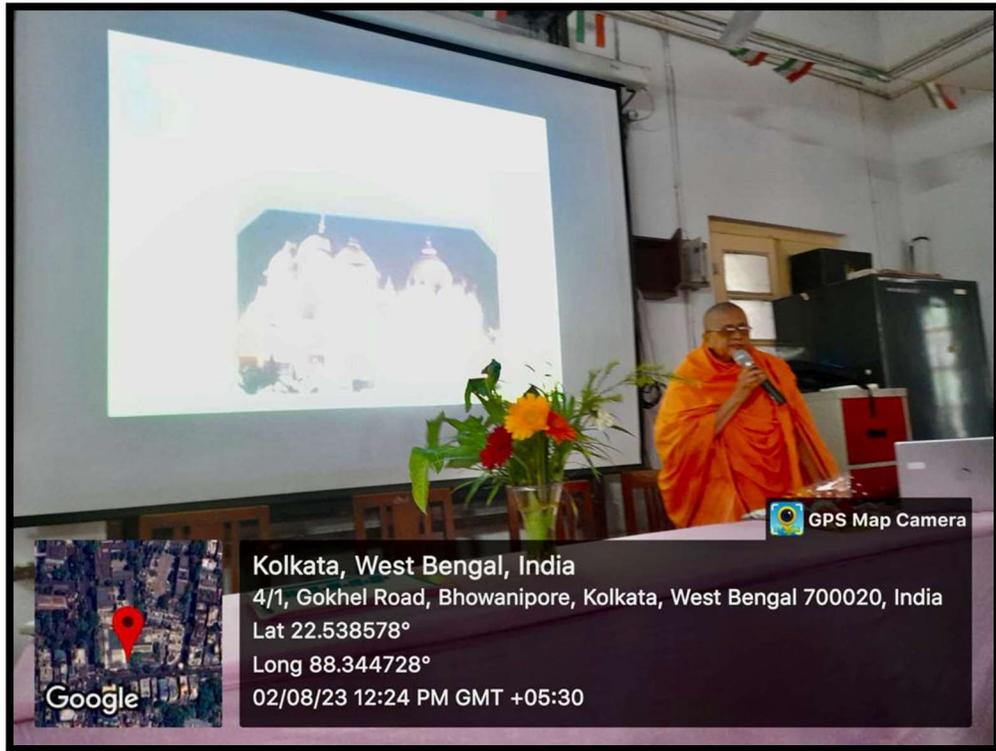

The purpose of organizing this session for students was to give a stimulus to the values already carrying with them.

Our most revered speaker Pravrajika Atandraprana Mataji, is a monastic member and Asstt Gen. Secretary of Sri Sarada Math and Ramkrishna Sarada Mission. She is an erudite and eloquent speaker on Vedanta, Indian Science and Heritage, Swamiji's thinking, Sister Nivedita's life and contributions. Mataji's simple and disarming way of elucidation makes the topic interesting and leaves a lasting impression in the minds of the audience.

Mataji has delivered lectures at various institutes, such as IIT Delhi, IIT Kharagpur, Indian Women Scientist Association, in the 150th Birth Anniversary of Swami Vivekananda observed by the Govt. of Arunachal Pradesh. She spoke extensively at the Residential Youth Retreat, a spiritual retreat organized by Sri Sarada Math, Pune, at the Sri Sarada Math Bengaluru, Shobhabazar Women Conference and in institutes across the country. Mataji is also actively associated with environmental protection activities in Kolkata, to mention specially the East Kolkata Wetlands Management. She has authored several books that have enriched the Ramakrishna-Vivekananda literature and has helped to rouse the spirit of nationalism.
