

NIC Policy on format of e-mail Address

- 1. Introduction:** National Informatics Center has a nationwide network providing a host of services over the network. One of the critical services being provided is the e-mail service. We are in the process of rationalizing the myriad of e-mail addresses offered by NICNET. The growth of the net work services had been going on at an explosive rate and the time has come for stream lining of the e-mail services by adopting a single virtual e-mail server for the whole nation and achieving address resolution in such an environment. The present Version 1.0 of the "NIC Policy on e-mail address" is a step in that direction.
- 2. Applicability:** This policy is applicable to all the users of the NICNET services.
- 3. e-mail Address Policy:** The major problem that is to be resolved in giving the e-mail addresses to the users is to ensure the address resolution when multiple similar names occur, which is a common occurrence. This problem is found to occur in every nation and therefore there are some proven name resolution methods that have been used by many of the service providers. There are two major naming methods that are used in India. In some parts of India, the "surname" or the "family name" is used to address a person. In some other parts (though in a few states) the "given name" is used for addressing a person. In one state, one gets to see the usage of a large number of initials attached to a given name. Therefore, unlike in the west, where the naming mechanism is uniform, we need to take the differences in the naming mechanism to be reflected in the e-mail addresses so that the address resolution problem is properly taken care of on an All India Basis.

4. Policy for Address Resolution: The policy refers to both the e-mail domains, which shall be virtual e-mail domains, and the e-mail addresses.

4.1 e-mail addresses: The e-mail addresses shall have a single domain by default “gov.in” and no sub names as in the past. That is all the e-mail addresses that shall be operative over the NICNET shall have the same unified address part as “@gov.in” Therefore any e-mail address given anywhere in India over the NICNET shall have the same unified address part “@gov.in”

4.2 e-mail Addresses: The address will have only two parts and in special cases, only one part. That is the address would look like aaaa.bbbb@gov.in. The first part “aaaa” can be either a given name or a family name. The second part “bbbb” will be comprising of either all initials put together or a family name or given name as the case may be. Below are given a few names that may cause address resolution problems and the proposed method of allocating e-mail addresses is presented. A few examples are given below to illustrate the procedure that would be adopted in allocating the e-mail addresses:

4.2.1. Rakesh Kumar Sehgal

Rakesh Kumar Saxena

Here, the two e-mail addresses would be:

sehgal.rk@gov.in

saxena.rk@gov.in

4.2.2. Rakesh Kumar

Rakesh Kumar

Rakesh Kumar

Here, the three e-mail addresses would be:

rakesh.k@gov.in

kumar.r@gov.in

rakesh.kumar@gov.in

4.2.3. In special cases where more than three persons have the same name Rakesh Kumar, then the name of the place where he is working, or the place where he belongs to, or even a number would be added as the additional part based on the user discretion. That is, the e-mail address would be "rakesh.kumar.agra@gov.in" i.e. name.{dept/min}@gov.in.

NOTE: Two character state codes (as per ISO 3166; ref- Appendix - 1) and Four character (2 for state and 2 for districts within state) district codes (as per ISO 3166-2; ref – Appendix 2) may be used while adding suffix or domain name abbreviation, whenever required. In cases where abbreviations are available from census of India, is also a valid candidate for this purpose based on the user preference.

4.2.4. S.B.P.V.Ramana Murthy

Here the e-mail address would be:

ramanamurthy.sbpv@gov.in

4.2.5. S.B.P.V.Ramana Murthy

S.B.P.V.Ramana Murthy

S.B.P.V.Ramana Murthy

Here the three e-mail addresses will be:

ramana.murthy@gov.in

ramanamurthy.sbpv@gov.in

murthy.ramana@gov.in

5. The existing e-mail addresses will be mapped to the corresponding new e-mail addresses and would co-exist till a date that is pre-decided. After that date, only new addresses would become operative. It is also possible to maintain the old e-mail addresses and the new e-mail address. All outgoing mails will take the new address and system

will still accept the mails coming to the old e-mail address for a pre-defined time.

6. Official Addresses/E-mail address for different Govt. Offices:

Some conventions have to be followed as shown below.

- 1.Joint-Secretary Ministry of Finance ---→ js-finance/js-dept-finance
- 2.Addl-Secretary Ministry of Finance ---→ as-finance/as-dept-finance
- 3.Secretary Ministry of Finance ---→ secy-finance
- 4.Police Commissioner
- 5.Resident Commissioner
6.
7.

These addresses are official positions and will remain permanent. These addresses may be mapped to the actual person who is holding the present position. When a new person comes to the same position on transfer, the mapping will be changed to new person e-mail id.

Appendix (1)

STATE Abbreviations (2-3 character abbreviation for States(s) and Union territories of India; As per ISO 3166). These codes should be used for the creation of (1) domain abbreviation, (2) Adding Suffix or Prefix to the login id to resolve username conflict, etc.
